REQUEST FOR REFUND UNDER 37 CFR § 1.26(a)

Filed via EFS-Web

Commissioner for Patents

P.O. Box 1450

Alexandria, Virginia 22313-1450

Sir:

This Request for Refund is being filed in response to an erroneous \$300.00 charge on Deposit Account Number 502806. The undersigned hereby requests that a refund of \$300.00 be credited to **Deposit Account No. 502806**.

CERTIFICATE OF TRANSMISSION UNDER 37 C.F.R. § 1.8(a)(1)(i)(B)

Date of Transmission: 3/16/11

I hereby certify that this correspondence is being transmitted to the U.S. Patent and Trademark Office (USPTO) via facsimile to the USPTO's Refund Branch on the date shown above.

By: James E. Walton
James E. Walton

Our Deposit Account No. 502806 was erroneously charged for an examination fee under 37 C.F.R. § 1.492(c) in the amount of \$200.00 and charged for a search fee under 37 C.F.R. § 1.445(a)(2) for the amount of \$100.00 for a total charge of \$300.00. Attached hereto is a copy of the monthly statement of deposit account indicating a charge of \$200.00 posted on 1/7/11 and a charge of \$100.00 posted on 1/7/11.

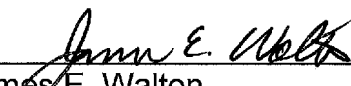

The International Preliminary Report on Patentability for the present application states that all claims, Claims 1-36, of the present application meet the criteria set out in PCT Articles 33(2)-(4). Thus, no examination fee under 37 C.F.R. § 1.492(c) and search fee under 37 C.F.R. § 1.445(a)(2) should be required. Attached hereto is a copy of the International Preliminary Report on Patentability indicating that Claims 1-36 satisfy PCT Articles 33(2)-(4). See page 4.

Therefore, the undersigned hereby requests a refund of \$300.00 to be credited to Deposit Account Number 502806.

This Request for Refund is being filed via the U.S. Patent and Trademark Office's EFS-Web electronic filing system. The undersigned hereby authorizes the Commissioner to credit **Deposit Account No. 502806** for \$300.00.

Respectfully submitted,

BELL HELICOPTER TEXTRON INC.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the *PCT Applicant's Guide*.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

Supplemental Box

In case the space in any of the preceding boxes is not sufficient.

Continuation of:

Claims 1-36 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest the flight control system of the present invention wherein the relative velocity between a reference vehicle and an aircraft is commanded to a desired relative velocity, in order to keep the aircraft in a particular formation using the commanded relative velocity as claimed.

Claims 1-36 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.
